

## CONTENTS

<i>Sergey Borisenok</i> Control over performance of qubit-based sensors .....	93
<i>Bruno Garbin, Giovanna Tissoni, and Stephane Barland</i> Excitable pulses and diffusion of localized states in a driven semiconductor laser with delay .....	96
<i>Anton Proskurnikov and Oleg Granichin</i> Evolution of clusters in large-scale dynamical networks .....	102
<i>Valentin Irtegov and Tatiana Titorenko</i> On motions of a conservative system on invariant manifolds .....	130
<i>Olga Tomchina</i> Control of vibrational field in a cyber-physical vibration unit .....	144
<i>Liudmila Vladimirova, Irina Rubtsova, and Nikolai Edamenko</i> Electrostatic potential calculation by application of walk-on-spheres method .....	152
