

CONTENTS

<i>German P. Averyanov, Valentina V. Dmitriyeva, and Grigory G. Novikov</i> Virtual electrophysics laboratories: new generation	153
<i>Vladimir Bondarko</i> Stabilization of linear systems via a two-way channel under information constraints	157
<i>Alexander Chikhachev</i> Acceleration of the heavy ions in the flow of the electrons	161
<i>Agnessa Kovaleva</i> Autoresonance in a pair of coupled oscillators	166
<i>Elena Podivilova, Leonardo Acho, and Yolanda Vidal</i> Performance evaluation of a sliding mode controller in discrete time domain using polyhedral approximation method	174
<i>Stanislaw Sieniutycz</i> Variational relativistic thermohydrodynamics	180
