

CONTENTS

<i>Alexander Arguchintsev, Vasilisa Poplevko, and Alexander Sinitsyn</i> Variational optimality condition in control of hyperbolic systems with boundary delay parameters	61
<i>Eugenie Eremin, Larisa Nikiforova, Denis Telichenko, and Evgeniy Shelenok</i> Adaptive control system for structurally undefined thermal power plant on set of functioning states	67
<i>Tung Nguyen Khac, Sergey M.Vlasov, Anton A.Pyrkin</i> Parameters estimation of multi-sinusoidal signal in finite-time	74
<i>Alexander Knyazhsky and Alexander Nebylov</i> Altitude minimization of a group of unmanned low-flying vehicles without use of a priori information about the physical fields of the Earth	82
<i>Muhafzan Muhafzan, Admi Nazra, Ahmad Iqbal Baqi, and Zulakmal Zulakmal</i> On tracking control problem for fractional order descriptor systems	87
<i>Anna Sergeenko and Oleg Granichin</i> Sensor network control based on randomized and multi-agent approaches	94
<i>Vera Smirnova, Anton Proskurnikov, and Roman Titov</i> Refined frequency estimates for stability domains of synchronization systems	106
